

# Complete Page List – PGSM Platform

---

## PUBLIC PAGES (No authentication required)

### 1. **login.php**

- Login form for all user types (student, doctor, hospital, admin)
- Role-based redirection after successful login
- "Forgot password" link
- Security: CAPTCHA after 3 failed attempts, account lock after 5 attempts

### 2. **forgot-password.php**

- Email input to request password reset
- Sends secure token (valid 1 hour)

### 3. **reset-password.php**

- New password form with token validation
  - Password strength requirements displayed
- 

## STUDENT PAGES

### 4. **student/dashboard.php**

- Welcome message + profile completion indicator
- Current applications status (submitted, under review, accepted, rejected)
- Active internships and upcoming ones
- Recommended internship offers
- Required actions (missing documents, pending evaluations)

### 5. **student/profile.php**

- Personal information (photo, contact, birth date, emergency contact)
- Academic information (student number, current year, specialty)
- Documents section (CV, transcripts, certificates) – upload/download
- Profile completion percentage
- Password change

## 6. **student/internships-list.php**

- Search bar with advanced filters (location, service, hospital type, dates, level)
- List/card/map view toggle
- Internship cards showing: title, hospital, service, dates, spots available
- "Apply" button on each offer

## 7. **student/internship-details.php**

- Complete internship offer information
- Hospital and service details
- Requirements and prerequisites
- Application deadline
- "Apply Now" button

## 8. **student/apply.php**

- 4-step application process:
  - Step 1: Prerequisites verification
  - Step 2: Motivation letter (200-500 words, rich text editor)
  - Step 3: Upload documents (CV, transcripts, certificates)
  - Step 4: Confirmation and submit

## 9. **student/my-applications.php**

- Table of all applications with status (submitted, under review, accepted, rejected)
- Filter by status and dates
- Action buttons: view details, withdraw application

## 10. **student/my-internships.php**

- List of accepted/ongoing internships
- For each: hospital, service, tutor, dates, attendance rate
- Access to logbook and evaluations

## 11. **student/logbook.php**

- Daily logbook entries (date, service, tutor, activities, clinical cases, skills)
- Submit for tutor validation
- History of validated entries

## 12. **student/attendance.php**

- Attendance tracking (QR code scan or manual validation)
- History: dates, arrival/departure times, status (present, absent, late)
- Absence justifications upload

### 13. **student/evaluations.php**

- View all evaluations (mid-term and final)
- Evaluation grids with scores by domain
- Tutor comments
- Download evaluation certificates

### 14. **student/messages.php**

- Internal messaging inbox/sent/drafts
- Compose message to tutors/hospitals
- Conversation threads
- Attachments support

### 15. **student/notifications.php**

- List of all notifications (new offers, application responses, messages)
  - Mark as read/unread
  - Notification preferences
- 

## **HOSPITAL/ESTABLISHMENT PAGES**

### 16. **hospital/dashboard.php**

- Statistics: total services, published offers, received applications, hosted students
- Recent applications to review
- Active internships by service
- Quick actions: publish offer, view applications

### 17. **hospital/profile.php**

- Hospital information (name, type, address, accreditation number, director)
- Contact details
- Logo upload
- Password change

### 18. **hospital/services.php**

- List of medical services (surgery, pediatrics, gynecology, internal medicine, etc.)
- Add/edit/deactivate services
- For each service: name, specialty, capacity, chief

### 19. **hospital/offers-list.php**

- Table of all internship offers with status (draft, pending, published, closed)

- Filter by service, status, dates
- Actions: edit, publish, close, duplicate

## 20. **hospital/offer-create.php**

- Form to create new internship offer
- Sections: general info, educational objectives, practical details, requirements
- Save as draft or submit for publication

## 21. **hospital/offer-edit.php**

- Edit existing offer (same form as create)
- Cannot edit if applications already submitted

## 22. **hospital/applications-list.php**

- All received applications
- Filter by offer, service, status, student
- Bulk actions: accept/reject multiple
- Export applications list

## 23. **hospital/application-details.php**

- Student complete profile and documents
- Motivation letter
- Application details
- Actions: accept, reject, request more info
- Add review notes

## 24. **hospital/students-list.php**

- Current students doing internships
- Filter by service, dates
- View: photo, name, service, tutor, dates, attendance rate
- Quick access to evaluations

## 25. **hospital/statistics.php**

- Charts and graphs: students per service, acceptance rate, attendance rates
- Historical data
- Export reports (PDF/Excel)

## 26. **hospital/tutors.php**

- List of doctor tutors in the hospital
- Add/remove tutors
- Assign tutors to services

# DOCTOR/TUTOR PAGES

## 27. **doctor/dashboard.php**

- Current students supervised (with photos)
- Pending actions: logbooks to validate, attendance to confirm, evaluations to complete
- Service activity statistics
- Quick access to evaluations

## 28. **doctor/profile.php**

- Personal information (name, grade, specialty, sub-specialty)
- Professional info (order number, hospital, service, diplomas)
- CV upload
- Password change

## 29. **doctor/students.php**

- List of students currently supervised
- Filter by service, internship dates
- For each: name, year, internship period, attendance rate, performance
- Quick actions: validate attendance, evaluate

## 30. **doctor/attendance-validation.php**

- List of attendance records to validate
- QR code generation for daily check-in
- Approve/reject attendance with comments
- Absence justification review

## 31. **doctor/logbook-validation.php**

- Student logbook entries pending validation
- Read daily entries (activities, cases, skills, reflections)
- Approve with comments or request corrections

## 32. **doctor/evaluations.php**

- List of students to evaluate (mid-term and final)
- Evaluation grids by domain:
  - Technical skills (40%)
  - Patient relations (25%)
  - Teamwork (20%)
  - Professionalism (15%)

- Comments section
- Submit evaluation

### 33. **doctor/evaluation-form.php**

- Structured evaluation form (1-5 scale for each criterion)
- Overall comments and recommendations
- Validation decision: pass/fail
- Electronic signature

### 34. **doctor/messages.php**

- Internal messaging with students and hospital
  - Same features as student messaging
- 

## ADMIN/DEAN PAGES

### 35. **admin/dashboard.php**

- Global platform statistics: total users, hospitals, services, offers, applications
- Priority alerts (absences, incidents, system issues)
- Recent activity
- Quick actions: create account, generate report

### 36. **admin/users-list.php**

- Complete list of all users (students, doctors, hospitals, admins)
- Filter by role, status (active/inactive/suspended)
- Search by name, email, ID
- Bulk actions: activate/deactivate accounts

### 37. **admin/user-create.php**

- Form to create new user account
- Dynamic form based on selected role (student/doctor/hospital/admin)
- Auto-generate temporary password
- Send welcome email with credentials

### 38. **admin/user-edit.php**

- Edit user information
- Change role or status
- Reset password
- View login history

#### 39. **admin/students-management.php**

- Specific student management
- Import students via Excel batch
- View academic progression
- Internship history per student

#### 40. **admin/hospitals-management.php**

- List of all hospitals/EPSP
- Add/edit hospital information
- View services per hospital
- Statistics per establishment

#### 41. **admin/internships-overview.php**

- Global view of all internships (past, current, future)
- Statistics: students with/without internship, distribution by hospital
- Map view of internship locations
- Export global report

#### 42. **admin/statistics.php**

- Comprehensive statistics dashboard:
  - Student distribution by year/specialty
  - Hospitals and services count
  - Applications and acceptance rates
  - Evaluation averages
- Custom date ranges
- Export charts and data

#### 43. **admin/reports.php**

- Generate custom reports
- Report types: weekly activity, monthly distribution, annual summary
- Scheduled automatic reports
- Export formats: PDF, Excel, Word

#### 44. **admin/configuration.php**

- Platform settings:
  - Email templates
  - Notification settings
  - System parameters (session timeout, file size limits)
  - Academic year configuration

#### 45. **admin/logs.php**

- System activity logs (logins, actions, errors)
- Security audit trail
- Filter by user, action, date
- Export logs

#### 46. **admin/support.php**

- Support tickets from users
  - FAQ management
  - User feedback
  - Technical issues tracking
- 

## **COMMON PAGES (All authenticated users)**

#### 47. **notifications-center.php**

- Centralized notifications page
- Filter by type and status
- Mark all as read

#### 48. **help.php**

- Help documentation
- FAQ
- Video tutorials
- Contact support form

#### 49. **logout.php**

- Logout action
  - Session destruction
  - Redirect to login
- 

## **ERROR/UTILITY PAGES**

#### 50. **404.php**

- Page not found error

#### 51. **403.php**

- Access denied (unauthorized role)

## 52. **500.php**

- Server error page

## 53. **maintenance.php**

- Maintenance mode page
- 

**TOTAL: 53 pages** organized by role and functionality.

Would you like me to start creating the UI for specific pages? I can begin with the login page and dashboards, or any other page you prefer! 🚀
